PROFILE SUMMARY

Highly motivated Web Developer and Data Science student at IIT Madras. Experienced in building responsive websites and web applications using HTML, CSS, JavaScript, Bootstrap, Flask, and Python. Focused on creating clean user interfaces, mastering new technologies, and turning practical ideas into functional digital projects.

TECHNICAL SKILLS

Frontend

HTML5 / CSS3

JavaScript / jQuery

Bootstrap / React (Basic)

Backend & Logic

Flask Framework

Python (Basic)

PHP (Basic) / Jinja

Tools & Workflow

Git Pipelines

GitHub Environment

VS Code IDE

FireBase

Wordpress

CORE PROJECTS

Placement Portal

[Flask](#) • [Jinja](#) • [HTML5](#) • [Bootstrap](#)

- Developed a dedicated job portal designed to help candidates seamlessly discover and apply for matching roles.
- Implemented robust dynamic server-side rendering routes and intuitive navigation architecture panels.
- Designed completely responsive presentation layouts for cross-device viewports.

Trekking Management Application

[Flask](#) • [Python](#) • [Jinja](#) • [Git](#)

- Built an operational web platform for exploring trekking tracks and organizing scheduling pipelines.
- Developed administrative logic engines handling secure role allocations for users and internal staff.
- Created layout adaptations connected explicitly to structured backend server controllers.

Personal Portfolio Website

[HTML5](#) • [CSS3](#) • [JavaScript](#)

- Designed and optimized a lightweight personal web application framework to show technical case studies.
- Focused thoroughly on smooth render tracking, interface visual metrics, and responsive breakpoints.

EDUCATION

IIT Madras

BS Degree in Data Science and Applications

2024 – 2028 (Expected)

[Chennai, Tamil Nadu, India](#)

Miraj Mahavidyalaya

Higher Secondary Education (Class XII)

Graduated

[Miraj, Sangli, Maharashtra, India](#)

MTDK English School, Miraj

Secondary Education (Class X)

Graduated

[Miraj, Sangli, Maharashtra, India](#)

LEADERSHIP

Class Representative

Secondary College

- Coordinated active pipeline communications between students and internal campus faculty boards.
- Assisted administrative planners with organizing academic tracks, timetables, and peer group sessions.
- Represented student community concerns directly while preserving an balanced environment.

LANGUAGES

Tamil

English

Marathi

Hindi

DETAILS

- > Strong engineering focus on modern web application lifecycles and clean, intuitive user interface design.
- > Adaptable professional with a proven track record of fast, cross-functional problem-solving.
- > Solid understanding of Large Language Model (LLM) architectures, core functionalities, and their diverse types.
- > Knowledgeable in implementing SEO best practices and understanding how modern data algorithms drive user engagement.
